The material of training session will draw extensively on the book by Jean-Yves Duclos and Abdelkrim Araar (Springer, 2006) available at

http://www.idrc.ca/en/ev-97152-201-1-DO_TOPIC.html

It will also use other material that will be distributed shortly before the workshop. The training session will also make use of the DAD and the Stata softwares (including the DASP module developed by PEP) to illustrate and apply the measurement and policy tools that will be presented.

The topics should include (not necessarily in that order):

- 1) Panel data analysis
- 2) Growth and redistribution
- 3) Transition analysis
- 4) Chronic and transient poverty
- 5) Sectoral decomposition of changes in poverty
- 6) Pro-poor growth
- 7) Dominance tests
- 8) Growth and poverty
- 9) Inequality and poverty
- 10) Statistical inference: sampling distributions, confidence intervals and hypothesis testing
