13th CBMS Philippines National Conference was a great success

More than 1000 delegates, including key officials and policymakers, attended the 13th CBMS Philippines National Conference held from March 1 to 3, 2017, in Manila, Philippines. The conference featured presentations and discussions on the role and uses of the Community-Based Monitoring System (CBMS) in the context of emerging policy developments. The winners of the 2017 Best CBMS Photo and Best CBMS Advocacy Video were also announced. [Find out more](#)

Follow us on:

The 2017 PEP Annual Conference will be held in Nairobi, Kenya, from June 8 to 14.

PEP will invite representatives of nearly 35 shortlisted research teams from developing countries to present their **new project proposals** for support under the first funding round of PEP's [PAGE II program](#). These participants will also be provided with **intensive training** in cutting-edge research methodologies, as well as best practices for policy engagement and scientific writing. The event will also feature a series of **high-level panel discussions** on the policy implications of PEP and related research on female and youth entrepreneurship; and on integrating gender dimensions into economic policy analysis. [Find out more](#)

PAGE II launched as the first PEP institutionalization project gets underway

The first PEP project of the [PAGE II program](#) is underway, and it also happens to be the first of its kind. The Economic Research Institute (ERI), based in Ulaanbaatar, Mongolia was selected – out of 37 applicant institutions – as the first recipient of PEP's new institutionalization project grants. The aim of the grant is to establish the institution's expertise in policy analysis using CGE models, while bridging research and policy through an institutionalized approach. In January, PEP [MPIA resource persons](#) completed an initial field visit to meet the researchers and advise on the preliminary phases of the project. [Find out more](#)

A dozen national policy conferences held around the world to discuss PEP findings

PEP provides support for teams of local researchers to organize national policy conferences to present and discuss their findings and recommendations with key policy stakeholders and the general public (usually through the attendance of national media). The conferences held in various countries and regions – from Bolivia to India, Chad to Serbia, Uganda to Bangladesh – since the last issue of the PEP-talk [are listed below](#).

Over the same period, PEP has published the outcomes of more than 30 projects through its series of [working papers](#) and [policy briefs](#).

news and events

policy findings

PEP continually publishes the findings and outcomes of projects led by local research teams in developing countries, who have been selected and supported through its various research and capacity building initiatives. These projects address a wide range of policy and welfare issues. A few examples are provided below. A full list, based on projects supported under the [PAGE](#) and other initiatives, can be found here: [Recent policy findings from PEP-supported projects in developing countries](#)

Ghana

PAGE – The role of unions in improving working conditions in Ghana

Despite non-wage benefits - such as sick leave, maternity leave, and paid holiday - being guaranteed by law in Ghana, few people take advantage of them, particularly in the informal sector where noncompliance by employers is high. A team of local PEP researchers set out to investigate the determinants for access to non-wage benefits in the Ghanaian labor market, looking in particular at the role of trade unions. The team's analysis indicates that union presence plays a significant role in promoting workers' access to non-wage benefits. Specifically, unions play an important role in improving employees' awareness of their statutory entitlements. Find out more about the research methods, findings and policy recommendations in the following PEP publications:

Reports and publications: [Working paper 2017-08](#) | [Policy brief 161](#)

Research team: [Nkechi S. Owoo](#) | [Monica Puoma Lambon-Quayefio](#) | [Samuel B. Manu](#)

Senegal

PAGE – The impact of trade reforms on employment and well-being in Senegal

In 2014, West African countries negotiated an economic partnership agreement (EPA) with the European Union, cutting tariffs on EU imports. At the start of 2015, the Economic Community of West African States (ECOWAS) adopted a common external tariff (CET) for imports from outside ECOWAS countries. A team of local PEP researchers set out to evaluate the effects of the EPA and CET on youth employment, well-being, and government revenues in Senegal (an ECOWAS country). Their analysis indicates that the CET would have a number of positive effects for Senegal, including improved household well-being and increased employment for young people and women. In contrast, the EPA is likely to be detrimental to the Senegalese economy, with GDP decreasing by almost 3.9% and leading to a deterioration in well-being. Find out more about the research methods, findings and policy recommendations in the following PEP publications:

Reports and publications: [Working paper 2016-26](#) | [Policy brief 160](#)

Research team: [Sokhna Diarra Mboup](#) | [Racky Baldé](#) | [Thierno Malick Diallo](#)

Guatemala

PAGE – The impact of climate change on food vulnerability in Guatemala

Guatemala relies heavily on agriculture, both for food production and for employment. Unfortunately, agricultural production is vulnerable to adverse climate conditions, such as droughts. Climate change scientists predict that extreme weather events are likely to become more common over the coming decades. A team of local PEP researchers set out to investigate the impact of climate change on agriculture and other social and economic factors, as well as to provide a reliable indication of what will happen to food security if climate change causes reduced agricultural productivity or drought. Their analysis indicates that climate change poses a significant threat to food security in Guatemala, particularly due to the agricultural sector's reliance on rain-fed irrigation systems. Find out more about the research methods, findings and policy recommendations in the following PEP publications:

Reports and publications: [Working paper 2017-01](#) | [Policy brief 159](#)

current initiatives and collaborations

Through its manifold "Grant Plus" support program, PEP promotes the mobilization and expertise of local researchers in key **national and international research initiatives**. These special, often large-scale projects – usually focused on emerging development policy issues – are

conducted either through joint research initiatives, in collaboration with specific donors, or as studies commissioned by international institutions calling on PEP's extensive experience to provide scientific support and coordinate activities.

These are the ongoing PEP research, capacity building and/or special collaboration initiatives:

"Policy Analysis on Growth and Employment II (PAGE II – 2016-2020)" – co-funded by DFID (or UK Aid) and the IDRC

"STAARS - Structural Transformation of African Agriculture and Rural Spaces" – carried out with financial support from the Government of Canada through the IDRC. Other partners of the STAARS consortium include the [African Development Bank](#), the [African Economic Research Consortium](#), the [CGIAR Research Program on Policies, Institutions and Markets \(PIM\)](#), [Cornell University](#) and the [World Bank](#).

conferences

PEP national policy conferences

Through the PEP Grant Plus mechanism, local research teams are given support to organize conferences where they communicate and discuss their findings directly with policymakers and other key stakeholders at the national level. All the PEP national policy conferences that have been held since the last issue of PEP-talk are listed below.

November 17, 2016 – Ouagadougou, Burkina Faso

"Impact of mining operations and Chinese commercial expansion in Burkina Faso"

Three teams of local PEP researchers held a joint national policy conference in Burkina Faso to discuss the findings relating to the mining sector and China's expansion in Burkina Faso, generating high attendance from government, NGOs, academia, and media. [Find out more](#)

November 26, 2016 – Guwahati, India

"The positive effects of the national rural guaranteed work scheme in India"

Local PEP researchers presented findings and recommendations regarding the government's rural guaranteed employment scheme, raising keen interest with the Ministry of Rural Development. [Find out more](#)

November 30, 2016 – N'Djamena, Chad

"How policy can address inequalities linked to oil revenue in Chad"

PEP researchers discussed findings and recommendations regarding the impact of oil exploitation on poverty and inequality in Chad. More than 85 stakeholders attended the event, including representatives of the Ministry of Economic Planning and Development, the CCSRP and the Office of the President. [Find out more](#)

December 2, 2016 – La Paz, Bolivia

"Promoting social inclusion through microfinance in Bolivia"

Two teams of PEP researchers presented and discussed their findings relating to the impact of microfinance on social inclusion with key stakeholders in Bolivia – including several microfinance institutions. [Find out more](#)

December 2, 2016 – Belgrade, Serbia

"Social security strategies to reduce child poverty in Serbia"

Policy options drawn from PEP research on how to reduce child poverty in Serbia were discussed with key stakeholders from the Serbian government, NGOs, international organizations, academia and the media during a PEP conference held in Belgrade. [Find out more](#)

December 7, 2016 – Dhaka, Bangladesh

"How can microfinance loans support female entrepreneurship in Bangladesh?"

A PEP national policy conference held in Bangladesh to present findings on women's access to credit and entrepreneurship attracted more than 160 attendees. The audience included top-level government and banking sector policymakers, as well as leaders of the largest MFIs in Bangladesh. [Find out more](#)

December 15, 2016 – Kampala, Uganda

"Improving youth entrepreneurship through credit counseling in Uganda"

PEP researchers discussed their findings on the impact of credit counseling on youth entrepreneurship with representatives of several ministries during their PEP conference. Following the event, the team was invited to discuss further, and individually, with top officials from both the Ministry of Gender and the Ministry of Planning, to inform upcoming policy decisions. [Find out more](#)

December 14, 2016 – Skopje, Macedonia

"The effects of unemployment spells on youth employment in Macedonia"

PEP researchers discussed how the length of unemployment affects the chances of youth finding a job suited to their skill level. A top official from the Ministry of Labor and Social Policy confirmed that their findings would help inform forthcoming policy decisions and requested the team's cooperation for future policy consultations. [Find out more](#)

January 21, 2017 – Chennai, India

"The progress and prospects of the MGNREGS welfare program in rural India"

In January, another PEP national policy conference was held in India where PEP researchers discussed issues related to intra-household bargaining in rural areas. Among other issues, they presented their findings on the progress and prospects of MGNREGS – a governmental welfare program. Key policymakers for the State of Tamil Nadu expressed their intention to incorporate the findings and recommendations. [Find out more](#)

February 9, 2017 – Kampala, Uganda

"Discussing agricultural productivity, technology adoption and welfare in Uganda"

Findings from three projects relating to agricultural technology adoption and supported by PEP under the STAARS initiative were presented during a workshop held in Uganda. Co-hosted by the Economic Policy Research Centre in Kampala, the event helped improve stakeholder understanding of structural changes in agriculture. [Find out more](#)

February 22, 2017 – Nairobi, Kenya

"Presenting CBMS findings on youth unemployment and entrepreneurship in Murang'a County"

A PEP-supported research team hosted a workshop to share the findings from their study using a Community Based Monitoring System (CBMS) to track the different dimensions of poverty and other indicators of employment and entrepreneurship in Murang'a County to inform policy across Kenya. The findings were then discussed with officials from the Youth and Planning Departments of Murang'a and other counties, as well as with development partners and NGOs, including IDRC, UNDP and World Concern. [Find out more](#)

March 17, 2017 – Nairobi, Kenya

"Discussing gender and adoption of agricultural technologies in East Africa"

Organized jointly by PEP and the International Centre of Insect Physiology and Ecology, STAARS researchers presented their findings investigating various facets of agricultural technology adoption and impact in Kenya and Tanzania, with a particular focus on gender. Conclusions from the workshop highlighted women's empowerment as being vital for enhancing agricultural productivity. [Find out more](#)

International conference presentations

In acknowledgment of their expertise, many PEP researchers are also invited to present their work at international academic and policy conferences around the world. When needed, PEP awards special grants to support their travel and participation.

Since the last issue of the PEP-talk, findings from PEP-supported research were also presented at the following international events:

- IMF Conference on Gender and Macroeconomics, in Washington D.C, March 23, 2017
"The macroeconomic implications of female entrepreneurs facing financial frictions to access credit in Cameroon"
- 7th Bolivian Conference on Development Economics in Bolivia, December 8-9, 2016
"The impact of minimum wage rises on the Bolivian labor market"

2017 PEP Research Fellowship – PEP invited current and former grantees to apply to join the first cohort of PEP research fellows (the call is now closed). [Read more](#)
